

# ABSS Mega-Blast™ Vessels

## ABS-2800 ABS-4500

In the competitive world of today's industry, economical surface finishing is important. At ABSS we recognise this and we have introduced into our range, Mega-Blast™ Vessels.

Manufactured to the highest quality. The standard range includes the ABS-2800, 100 cu/ft (2800 Litre) with a Garnet Capacity of 6400kgs and the ABS-4500, 160 cu/ft (4500 Litre) with a Garnet Capacity of 10,350kgs.

The quality is in the construction and ABSS range of Mega-Blast™ Vessels are manufactured using 3/8" Steel on the Tank Shell and 1/2" Steel on the Tank Heads. All Mega-Blast™ Vessels are CRN-Registered, National Board Certified, U Stamped (ASME) and A-Stamped (Alberta).
